BUYERS OF PRINTING

are fast learning that they get just what they pay for.

Advertisers and buyers of printing used to look for bargains on every printing job. "How much?" was their middle name and printers had to under bid each other to get the job. To make any profit at all the printer had to skimp on press work and paper.

Today, buyers of printing are fast learning that good work is obtained only from good printing on good paper. Beating down the printer's price is "going out," for it neither paid buyer nor printer.

You get just what you pay for—good printing on good paper means more effective results—means profitable work and prosperity for the printer and buyer.

"The House of Flowers"

Gammage

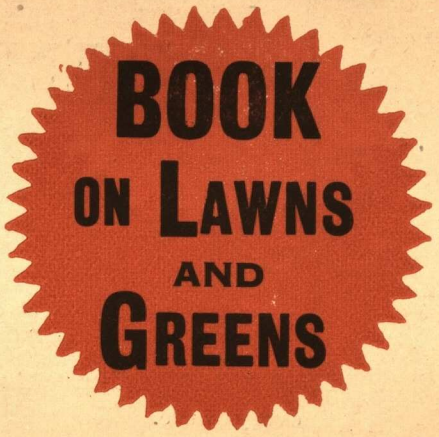
Write for this



Free to green keepers and others who desire the latest information on the building of a new Club Green or renovating an old lawn.

We quote Special Prices to Clubs, Institutions, Parks and others who require seed in large quantities.

LAWNS AND GREENS

It is most important that the lawn should be sown with a mixture of grass seeds especially adapted for the purpose required. A mixture suitable for a Park or Golf Course would be quite unfit for a private lawn, Bowling or Putting Green. All the finest grasses that are most suitable for the formation of a lawn when grown for seed, produce very much less weight of seed per acre than do the coarser growing varieties, consequently the cheaper the mixture the coarser the turf. We maintain that the finest dwarf growing grasses are the most economical even for large areas, as the turf formed by the dwarf compact habit of the finest grasses requires to be mown only about half as many times as a turf formed of coarser growing varieties.

LARGE USERS OF RENNIE'S SEEDS

The Sign Over Your Door

It is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The CITY DIRECTORY is where many people look when they want to find you. Make it easy for them to find you by putting in the Directory such Information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.
